

Official RALPH™ MASK

INSTRUCTIONS:

1. Print out this RALPH mask. You can't wear a digital file. We recommend a heavy paper so you can complete step 3.

2. Cut out RALPH mask. Make sure you give yourself some eye holes or you will walk around banging into stuff, breaking counters and chairs (and the only person at Jetpack allowed to do that is AI).

3. Use a piece of string to turn your RALPH cut-out into an actual RALPH mask. Or maybe glue a stick to the back, so you can hold the mask up "Opera Style." We don't know. Be crafty. You can figure out how to turn this thing into a mask. We just know it.

4. Put on the RALPH mask and feel the unbridled power of being RALPH. Insult your friends, customers and kids. Twitter all your latest moves. Obsess over the burritos at Chipotle. Basically, create a wake of mayhem and destruction wherever you go.

5. Wear the RALPH mask to FCBD 09 and get special stuff which we will determine when we see how good you look in the RALPH mask.
